| 94158 | $1,380,642 | +14.5% | $5,627 | +25.6% | 20.4 | -22.0% |

Overvaluation proxy is a directional public-ratio indicator (current price-to-rent vs the ZIP's own 5-year median), not a forecast. Blanks mean the free data does not support that metric for that ZIP.
